GENERAL SKILLS

Throughout my time working in all my different jobs I have had the chance to work independently and as part of a team. I am very good at being left to work as it is known that my work is always finished to a high standard and completed in good time. When working as a team I am a valued member of the group. I am happy to get on with the tasks I am set while always looking to lend a hand to my fellow teammates in their tasks should they need it. I am also good at

leading the team should someone need to take charge in any situation to keep things running smoothly.

In general I am a very calm person who doesn't become stressed at small inconveniences or when something is going wrong. I am very good at thinking on the spot and working out a solution that will not only benefit myself but has everyone's best interests worked out.

Although I work very efficiently to ensure all tasks are completed, I always keep everything fun and lighthearted.

I have a clean DBS check and continue to complete safeguarding training.
